

For configuring DUO app with your Xsede account:

<https://portal.xsede.org/mfa>

For logging into Xsede

<https://portal.xsede.org/single-sign-on-hub>

Commands from command line:

```
$ ssh <username>@login.xsede.org -X
```

Enter your password.

Then when prompted, pick option 1 (or 2 for) DUO.

In your DUO app, you need to “approve” before the system will let you log in.

```
$ xsede-gsissh-hosts
```

This will give you the list of all the clusters under Xsede, including stampede2.

To log into stampede:

```
$ gsissh stampede2
```
